

TITAN SERIES SLIDE GATE

www.vortexvalves.com

VALVE SIZE: 19" and 25"

HANDLING: Limestone

LOCATION: Limestone Mine
Central US

FEATURES: These Vortex Titan slide gates will be mounted in areas that are difficult to access for bonnet seal maintenance. As such, they are equipped with return pans that will prohibit fine material from escaping to atmosphere as bonnet seals wear.

DETAILS: A pneumatic actuator was specified for an indoor application where year around clean, dry air is available. An electric actuator was specified for an outdoor application where air supply problems exist during winter months..

400 & 700 lbs

(V129470)
